PROFESSIONAL SUMMARY

I am Computer Science student currently in pursuit of a Bachelors Degree in this field. I am a resourceful IT Generalist with experience in Customer Support, Data Entry, Desk Clerk duties, IT consulting, i have developed strong analytical skills, annotation skills, exceptional attention to detail, and a passion for identifying edge cases and improving processes.

PROFESSIONAL EXPERIENCE

Data Annotator (Remote) | Mecor AI | 2025-2026

- I experienced and grew my understanding on how to critically assess and analyse images through undergoing tasks that sharpened my skills details in noticing important image compositions and being able to tell when an image has been generated inaccurately through components like attention on light, skin tone, contrast and posing amongst others.
- I developed a keen eye in annotation of AI generated videos being able to critically assess the composition of the video to accurately judge and rate them based on lighting, positioning, compositions, object anatomy and textures
- I developed a sharp sense of annotation for analysing websites to be able to differentiate between useful contents in the websites, if a website is junk composing of false or unclear contents, incorrect JavaScript issues, database accessibility issues, unreachable and unresolved websites

Desk Clerk / Assistant | CBC | 2025-2026

- Through my honed communication skills i was able to efficiently coordinate with my colleagues to pass on critical information in the clearest terms breaking them down into easy dialogue therefore boosting our core effectiveness
- Contributed to multiple projects involving data gathering, project development, and operations management.
- Standardized data gathering and sorting across the department, saving several hours weekly.

Head Data Entry Specialist | CBC | 2025-2026

- Led a team of 3 to deliver integrity-based data gathering.
- Accurately posted insurance and patient payments into billing systems, ensuring data integrity and compliance.
- Reconciled payments with bank deposits and remittance advice, leveraging advanced Excel and Google Sheets skills to streamline reporting.
- Identified underpayments, overpayments, and denials, applying analytical problem-solving to resolve discrepancies.
- Generated detailed payment trend reports, contributing to improved financial transparency and operational efficiency.
- Collaborated with Chemicals Laboratory to resolve data integrity issues within the first month. · Received recognition for excellence in Data Integrity and sorting from Head of HR.

ADDITIONAL EXPERIENCE

Crisis Management

- I supported crisis management initiatives by aiding Operations Specialists in idea generation and execution
- Aided in providing travel initiatives to my head of department therefore substituting the initial failed travel plans

Communications Expert

- Through my honed communication skills i was able to efficiently coordinate with my colleagues to pass on critical information in the clearest terms breaking them down into easy dialogue therefore boosting our core effectiveness
- I tried my best to communicate most efficiently with clients and colleges although we didn’t entirely speak the same language (Chinese)

Leadership & Professional Skills

- Team Leadership and Coordination
- Precise attention to detail

- Organised and Time management
- Conflict Resolution
- Strategic Planning

Technological and Administrative Skills

- Data Annotation / AI training
- Data Entry
- Microsoft 360; Word, Excel, PowerPoint
- Google Sheets, Google Docs
- Label Studio, CVAT
- Computer Expert
- Basic theoretical understanding of SDLC and testing methodologies
- Python, HTML, CSS and automation testing concepts

ACADEMIC ACHIEVEMENTS / PROJECTS

- Participated as a team of 5 to build a junior-level e-commerce website enabling farmers to digitalize crop, farm, and livestock management.
- Developed a functional AI model using RAG LLM (Retrieval-Augmented Generation Large Language Model) to optimize database storage and retrieval.
- Built a Student Helper AI model integrated with WhatsApp, capable of analysing lecture documents and tailoring explanations to individual learning styles. Both projects utilized Claude API.

EDUCATION

- FSLC - Saint Gabriel Primary School, Jos
- SSCE - Command Day Secondary School, Jos
- B.Sc. Computer Science - Federal University, Lafia, Nasarawa State (Undergraduate)
